

MIAMI-DADE COUNTY, FLORIDA
Aviation Revenue Bonds

SECURITY FOR THE BONDS

Pledge of Net Revenues

The Aviation Revenue Bonds (the "Bonds") issued under the provisions of the Amended and Restated Trust Agreement (the "Trust Agreement") entered as of December 15, 2002 with JPMorgan Chase Bank, New York, New York, as Trustee and Wachovia Bank, National Association, as Co-Trustee and accrued interest, are payable solely from and are secured, by a pledge of the Net Revenues of the Port Authority Properties ("PAP") under the provisions of the Trust Agreement. The Trust Agreement does not convey or mortgage any or all of PAP as a pledge or security for the Bonds. The Trust Agreement amended and restated a trust agreement entered into on October 1, 1954, as amended, with the Trustee and the Co-Trustee (the "Prior Trust Agreement"). For a brief description of such amendments, see "Amendments to the Prior Trust Agreement" below.

"Net Revenues" is defined in the Trust Agreement as the amount of the excess of the Revenues of PAP over the total of the Current Expenses of PAP. "Revenues" is defined in the Trust Agreement as all monies received or earned by the County for the use of, and for the services and facilities furnished by, the Port Authority Properties and all other income derived by the County from the operation or ownership of said Port Authority Properties, including any ground rentals for land on which buildings or structures may be constructed, whether such buildings or structures shall be financed by Bonds issued under the provisions of the Trust Agreement or otherwise, and Hedge Receipts. "Revenues" do not, however, include any monies received as a grant or gift from the United States of America or the State of Florida (the "State") or any department or agency of either of them or any monies received from the sale of property. "Current Expenses" are defined in part as the County's reasonable and necessary current expenses of maintenance, repair and operation of the Port Authority Properties and shall include, without limiting the generality thereof, amounts payable to any bank or other financial institution for the issuance of a Credit Facility, Liquidity Facility or Reserve Facility, but shall not include any reserves for extraordinary maintenance or repair, or any allowance for depreciation, or any Hedge Obligations or Hedge Charges.

For purposes of the Trust Agreement, unless otherwise provided by resolution of the Board, the proceeds of Passenger Facility Charges and interest earned thereon do not fall within the definition of Revenues and therefore are not included in Net Revenues. The Board has not provided by resolution for the Passenger Facility Charges to be part of Revenues. However, the County plans to transfer Passenger Facility Charges revenue into the Sinking Fund at the beginning of each Fiscal Year and the amount of such deposit will be credited against the Principal and Interest Requirements on the Bonds for that fiscal year.

Limited Obligations

The Bonds are special, limited obligations of the County payable solely from the Net Revenues pledged to the Bonds. Neither the faith and credit of the State of Florida (the "State") nor the faith and credit of any agency or political subdivision of the State or of the County are pledged to the payment of the principal of or the interest or premium, if any, of the Bonds. The issuance of the Bonds shall not directly or indirectly, or contingently, obligate the State or any agency or political subdivision of the State or the County, to levy any taxes for the payment of the Bonds or to make any appropriation for their payment except from the Net Revenues pledged and provided for the payment of the Bonds under the Trust Agreement.

Management's Discussion of Financial Information

Significant items affecting the financial results for Fiscal Year 2005 were:

- As of September 30, 2005, the Aviation Department's operating cash position was:

Revenue Fund ^(a)	\$48,198,331
Reserve Maintenance Fund	\$27,206,620
Improvement Fund ^(b)	\$89,125,838

^(a) Includes the operating reserve requirement of 13.5% of the current fiscal year's Current Expenses budgeted amount.

^(b) Includes \$42.9 million to be transferred to the Revenue Fund during Fiscal Year 2006 as required in the AUA.

- As part of its agreement to relinquish program management control over the North Terminal, American Airlines agreed to contribute \$105 million over the next ten years to pay claims and construction costs related to the North Terminal Development capital project. American made its first payment of \$15 million to the Aviation Department in June 2005.
- The airline industry has been in financial turmoil in recent years resulting in a number of bankruptcies. As of September 30, 2005, the Aviation Department had approximately \$4.5 million in receivables in pre-petition debt from bankrupt carriers. These revenues are not reflected in the historical operating results table because these financial results are presented on a cash basis.
- Aviation fees continue to increase in FY 2005 reflecting the additional debt issued by the Aviation Department to fund its Capital Improvement Program including the major terminal development for the North and South Terminals.
- Management agreement revenue decreased along with a corresponding decrease in management agreement expenses reflecting the Aviation Department's change from owning and operating (through a management agreement) retail concessions to contracting with an outside entity to operate the concession, who pays the Aviation Department a percentage of revenue and rent. The Aviation Department has been undergoing this change for a number of years starting with the duty-free contract, then the food & beverage and currently the retail concessions. A nominal amount of in-terminal concessions such as the Miami International Airport Hotel and the pharmacies will remain under a management agreement type operation.
- Although the retail concession revenue decreased as described above, a net corresponding increase was not achieved in concession revenues because a number of the new retail concession locations were under construction in FY 2005 thus they did not generate any revenue during this time frame resulting in an overall decrease in these revenues on a net basis.
- Other revenues in FY 2005 included a \$9.0 million non-recurring grant received from the Florida Department of Transportation to cover operating expenses incurred by the Aviation Department related to the aviation industry downturn after the 9/11/2001 incident.

In September 2005, the Board approved the Aviation Department's Fiscal Year 2006 budget. This budget reflects the Aviation Department's expectation of limited growth in enplaned passenger traffic (1.5 percent); reduction in landed weight (as experienced in the past few years); increase in operating expenses due to the planned opening of the South Terminal; use of \$65 million in PFC revenues to pay debt service (compared to \$35 million used in FY 2005); and a reduction from \$15.0 million to \$7.5 million in the annual deposit to the Reserve Maintenance Fund.

During Fiscal Year 2006, the Aviation Department, in conjunction with another County department, plans to implement a new ERP or Enterprise Resource Planning financial system. This system represents an integrated software platform that runs on a single database, which will enable the Aviation Department to replace its legacy financial systems with a fully integrated suite of financial applications, resulting in more timely and valuable financial data. In addition, the system will give the Department more flexibility in producing financial reports and make the data more readily available via the web to all authorized users.

Commercial Operations Revenues at the Airport

The Aviation Department received \$145.9 million in commercial revenues in FY 2005, which represents a \$31.7 million or 17.8 percent decrease over FY 2004. The primary reason for this decrease was explained above; the changeover in the retail concession from management agreement to third party operator. Other reasons for the overall decrease include less revenue from rental car operations (decreased by \$1.2 million from \$23.0 million to \$21.8 million) due to less rental car transactions at MIA (it is believed that competition from off-airport rental car locations is the reason for the reduction) and from the MIA Hotel and associated restaurant operations (decreased by \$3.9 million—from \$12.4 million to \$8.5 million) due to renovating the facility throughout most of the fiscal year. While the facility is undergoing renovations, the Aviation Department has kept half of the MIA Hotel rooms available for use by the hotel guests. On the upside, there were notable increases in some of the other major commercial operations at MIA. For example, parking revenue increased from \$31.4 million to \$34.1 million or 8.5% mostly due to increased parking activity and duty free revenue increased from \$13.7 million to \$14.4 million or 5.1%.

- (1) Represents the first eight months of the fiscal year of Port Authority Properties activity and the final four months (June through September) of combined Port Authority Properties and ADF Facilities post-merger activity.
- (2) At the beginning of each Fiscal Year and in accordance with the terms of the Airline Use Agreement (AUA), monies from the previous Fiscal Year remaining in the Improvement Fund are deposited, unless determined otherwise, into the Revenue Fund. The amount of such deposit is Revenue and is required by the AUA to be taken into account in determining the landing fee rate for such Fiscal Year in which the deposit is made.
- (3) Calculated in accordance with the Trust Agreement, as amended, by dividing Net Revenues after deposits by the required Principal and Interest Requirements.
